The History of
Mancino's
Pizza and Grinders

The term "Grinder" can be traced back to the East Coast, where during World War I Italian immigrants set up sandwich shops close to the shipyards. Their freshly baked Italian bread was filled with generous amounts of meats and cheeses and were then baked and garnished with lettuce and tomato. These super-sized sandwiches were a favorite of the hard-working men who ground off rivets on the metal warships. The friendly shop owners referred to these men as grinders and the ever popular sandwiches also came to be known as grinders.

Mancino's Pizza and Grinder Shops were established in the late 1930's in St. Clair Shores, Michigan. The original concept is still prevalent in all the Mancino's today. The original recipes and good customer relations have never changed.

The Mancino's team insists on providing products which are high in quality, generous in portions, and superior in freshness. We will never compromise our quality for any gimmick or profit.

Mancino's of Brighton is family owned and operated.
